

# ECM2434 Group Software Engineering Project

## Privacy Policy

Group N - February 2021

### 1 What sort of data do we collect?

- Information and content you generate.  
We collect content, communications, usage, and other information you provide when you use the Group N (***Re-Connect***) network application. This data is stored for the purposes of usage analysis, demographic analysis, and recommendations such as relevant content.
- Network and connections.  
We collect information about the people you are ‘connected’ with or ‘friends’ with and how you interact with them. This information is used for the purpose of statistics such as mutual friends, and relevant connection requests.
- Information and opinions you provide.  
Occasionally, we may provide you with optional surveys asking for your opinion on certain parts of the (***Re-Connect***) platform. This data is stored for us to ascertain general user opinions on our application and hopefully amend it to fix any issues or parts of the platform users seem unhappy with.

### 2 Promoting safety, integrity, and security

- We use the information we collect to verify authenticity of content shared from accounts and promote safety on the (Re-Connect) platform
